

PROJECT DELIVERY STRATEGIES

- **LOW MARGINS**
- **INEQUITABLE SHARING OF RISK**
- **ADVERSARIAL CONTRACTUAL RELATIONSHIPS**
- **HIGH COST OF TENDERING**
- **COMMERCIAL BARRIERS**

- **PROBITY**
- **VALUE FOR MONEY**
- **UTILITY**
- **PERFORMANCE**
- **QUALITY**

VALUE ALIGNMENT

SUCCESSFUL ACTIONS **Brisbane Olympic Stadium**

Information provided below shall be placed on a database for the CRC 2a Project.

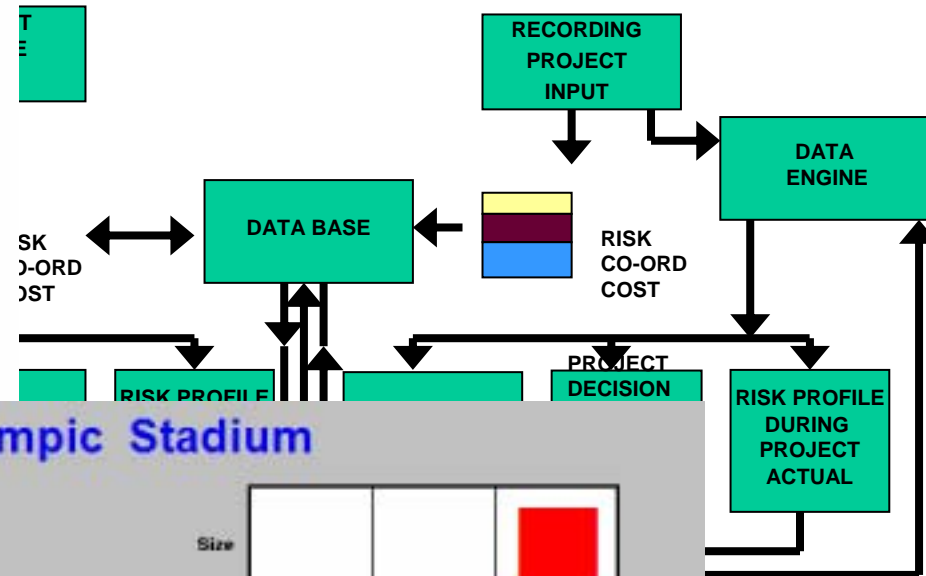

Your selection to date are :
 - Generic Action Selected is - Agreeing the construction strategy taking account of lifecycle costs.
 - Phase of the project is - 1. Inputs .

Size Complexity Predictability Objectives

Who acted	Action	Aim	More information
The Client	A senior member of staff was given 12 months and advice on construction issues in order to research and devise the client brief.	To ensure that the users' interests were taken into account in the brief and ensure that the project was feasible.	Other details will follow
