Innovative Australian Contractors Receive Recognition

A database of Australia's most innovative contractors has been developed by the CRC for *Construction Innovation* More details

As the year draws to a close, I would like to take the opportunity to reflect on some key achievements the CRC for Construction Innovation has delivered over the past 12 months.

Our links with Western Australia were significantly strengthened when we welcomed the Western Australian Government's Department of Housing and Works and Curtin University of Technology as core partners into our applied research and education program.

This brings to 21 the number of industry, government and research partners shaping the directions of *Construction Innovation* and our industry.
