

Conference hailed a showstopper...Broadway-bound

A stunning success! That's the verdict of the 240 delegates, presenters and invited guests at *Construction Innovation's* 2006 Clients Driving Innovation Conference.

"The feedback has been absolutely emphatic," said Dr Keith Hampson, CEO of *Construction Innovation*. "Many of the delegates are industry leaders — internationally and domestically — and they've told me what they've heard here at our conference has inspired them." [More Details](#)

Tips for successful eTendering implementation

Need tips on how to successfully implement eTendering systems? A new guide from *Construction Innovation* draws on the outcomes of an investigation into eTendering, providing recommendations to be considered when implementing eTendering systems, procedures and policies. [More Details](#)

Scholar's Corner: Wei Peng

Construction Innovation scholar Wei Peng (The University of Sydney) won the prestigious scholars award at the Clients Driving Innovation Conference, earning himself a two-day project management course. [More Details](#)

Upcoming Events

- **Green Buildings Conference**, 26—28 June 2006, Sydney. An LCADesign workshop will be held and Delwyn Jones will also speak about LCADesign.

From the CEO's Desk

Recently, we held the second Clients Driving Innovation Conference on Queensland's Gold Coast. More than 90 speakers from 11 countries spoke on themes such as safety, facility management, procurement, sustainability, risk management and other issues facing our industry.

Technology was also a major theme. We were privileged to have several international experts as speakers, including Professor Martin Fischer of Stanford University (US), Arto Kiviniemi from Finland's Technical Research Centre, and Martin Riese and John Fraser from the US company Gehry Technologies.

All these sessions were very popular among delegates...
