

Award presentation by  
Deputy Minister of Youth  
and Sports of Malaysia

Soon Kam—who is currently undertaking his PhD in sustainable construction with QUT's Faculty of Built Environment and Engineering—was presented with the Outstanding Young Malaysian Award 2006 (Moral and Religious Leadership category) in Kuala Lumpur in November 2006.

The award is an impressive addition to Soon Kam's already remarkable list of achievements, which include being the recipient of both the CRC for Construction Innovation PhD Scholarship Award and the QUT School of Construction Management and Property Scholarship Award.
