

You are invited to attend an international summit on buildingSMART in design construction and FM in Brisbane, Australia.

**Government Session:** *Enabling National Productivity in the Construction Sector*; Tuesday 14.00 – 18.30, **13 November 2007**

**Industry Session:** *Working Smarter in the Construction Sector*; Wednesday, 8.30 – 18.00, **14 November 2007**

Featuring expert speakers, case studies, innovative software users and developers, the summit is designed for industry and government leaders who want to learn more about the business case for BIM and who want faster, better, less expensive results with reduced risk.

A networking **Cocktail Function** will be held on Tuesday evening **13 November** at the Gallery of Modern Art overlooking the Brisbane River and city skyline.

For more details go to:

Brandtman, Brisbane
- **Runcorn State Archive: Using 4D:** Barry Ramsey, A3D,  
Mark Dohnt, Project Services, Queensland Department of  
Public Works, and Paul McCarty, Laing O'Rourke
- **Working with Government:** Max Smith, Deputy Director-  
General (Works), Queensland Department of Public Works
- **Integrated practice - a new paradigm for collaborative  
working in the construction sector:** Alec Tzannes,  
National President, RAIA, Sydney

Digital modelling and BIM technologies are acknowledged as crucial to the future of the design, construction and facilities management industry. Presently these technologies are being used in isolation by different parts of the supply chain, limiting their potential.

Individual efforts to change the industry's culture, processes and technology are now being brought together worldwide in the buildingSMART movement, which has established an open standard (IFC) for the use of object technology in construction and facilities management.

With the US Government soon requiring all newly commissioned projects to be modelled in IFC-compliant software and the German Federal Government planning to adopt BIM and IFC for its construction programs, it's not a question of if your organisation will become IFC-compliant, but when.

---

This will be a major networking event for all Project Managers in Queensland. It recognizes the significant impact of professional project management on the state economy.

To register go to

<http://mlaa.com.au/buildingSMART/Registrationandpayment.htm>

**Government and Industry Forum** - if booked on or before 10 October - \$ 220

**Government and Industry Forum** - if booked after 10 October - \$ 330

**Government and Industry Forum** – IAI buildingSMART members - \$220

**Government Forum only** - \$50.00

**Cocktail Evening on 13 November** - \$60.00

### **Payment**

Payments may be made via EFT, cheque, or credit card. Please complete the Payment Form [www.mlaa.com.au/Paymentform.htm](http://www.mlaa.com.au/Paymentform.htm), print the page and fax or post with your credit card details or cheque (payable to Martin Lack & Associates) to:

Martin Lack & Associates, 39 Tinarra Crescent, Kenmore Hills Q 4069

Fax: (07) 3378 9513

### **Cancellations (Terms & Conditions)**

Martin Lack & Associates as organiser of the event on behalf of buildingSMART is pleased to provide refunds for cancellations advised in writing by COB ?????. You may substitute a colleague at any time if you are unable to attend. The delegate fee will be charged for delegates who do not attend the meeting and fail to cancel prior to ????. Non-payment of an invoice prior to the event does not automatically cancel your registration.
