

Education and Skills Development Program 08

Safety Leadership Foundations

Safety leadership is an ACTION not a job title!

One worker a week dies on construction sites around Australia and 20-24 year-olds in the building and construction industry are four times more likely to have a fatal accident than those in other industries. Everybody wants to be safe, yet factors like budget and time constraints and the desire to take short cuts when the pressure is on often conflict with the desire to put safety first. If you hold a safety critical role, this workshop helps you build the skills and competencies to manage the safety of others in your workplace more effectively.

Who should attend?

- CEO's & Senior Managers
- Supervisors
- Safety Managers
- Anyone with a safety critical role

Cost and Duration

8.30am till 5.00pm on both days
\$1495 plus GST (\$1644.50)
Maximum of 24 per workshop

What's included?

- Two full days of training
- Free legal advice provided by Baker & McKenzie
- Toolkit and all participant materials
- Morning tea, lunch & afternoon tea

Locations, Dates and Venues

Brisbane 30 April – 1 May 08
Medina Executive Brisbane
17 Ivory Lane, Brisbane QLD 4000

What will you learn?

This leading-edge, practical workshop is designed to help you as a Supervisor or Safety Manager to manage your safety tasks. Participants will:

- Determine exactly what each leader is accountable for
- Gain clarity on what does the Act mean when it says "consultation and communication"
- Answer the questions, "How do I do this? Am I compliant?"
- Learn how to conduct more effective Tool Box talks and uncover what is really happening onsite
- Walk away with key ideas that will create and maintain a consistent and strong safety culture and know-how to get others to behave safely
- Understand your legal obligations.

Course Content

This practical and interactive workshop is the product of a two-year industry-led research project supported by the Office of the Federal Safety Commissioner. The project won the Australian Institute of Building's Professional Excellence in Building Award 2007. The workshop provides participants with the opportunity to:

- Reflect on their current work situation and have an opportunity to raise safety issues and ideas
- Review their understanding of their legal obligations through access to a specialist lawyer
- Review and practice communication skills for Toolbox and pre-start meetings and 1:1 safety discussions
- Understand how to manage risk
- Identify key activities that make up a safe and high performing work culture
- Create a practical safety improvement action plan to implement in their workplace team
- Discover how to manage people who demonstrate unsafe behaviours
- Learn how to improve reporting (incidents and near misses).

SAFETY LEADERSHIP FOUNDATIONS A TWO DAY PUBLIC PROGRAM

One worker a week dies on construction sites around Australia.

20-24 year olds in the building and construction industry are four times more likely to have a fatal accident than those in other industries. So what are you going to do about it?

Safety Leadership Foundations

Program Partners

Program Facilitators – Safety Dimensions

Safety Dimensions, a division of Learning Dimensions International, specialises in Safety Leadership and Culture Change. With a team of 40 Facilitators, Safety Dimensions is a leader in the area of building safety cultures, and as a testament to the outcomes achieved to date, is the only organisation licensed to deliver the Certificate IV in OHS (Construction).

Program Partner – The Cooperative Research Centre (CRC) for Construction Innovation

As a national research, development and implementation centre focused on the needs of Australia's property, design, construction and facility management sectors, the CRC Construction Innovation develops key technologies, tools and management systems to improve the effectiveness of the construction industry.

Workshop Contributor – Baker & McKenzie

Baker & McKenzie provides sophisticated legal advice and services to the world's business community and has done so for more than 50 years. Our network of lawyers is among the world's most diverse, with over 3,600 locally qualified, globally experienced lawyers in 38 countries and 70 offices. In Australia, we work with major Australian businesses and international companies. With 85 partners and over 215 lawyers, we have the critical mass to work on the most demanding of projects. Baker & McKenzie's OHS team is comprised of lawyers with specialist OH&S training and experience who advise not only on legal obligations, but also provide practical guidance on proven strategies to develop safer workplaces. Baker MacKenzie provides advice to participant on the program.
